Amendment to the Specification:

Please amend the paragraph [0024], as follows:

[0024] The bulbous section [[14]] 16 is depicted as a generally spherical section in FIG. 1. The present invention, however, is not so limited, and the bulbous section may have other outwardly extending or flared configurations. For example, the bulbous shape may be oblong. Desirably, the bulbous section 16 or the petal-like projections 20a, 20b, 20c are contoured to mimic the shape of the sinuses of Valsalva.
